Storytime Activity Guide

*Egg* by Kevin Henkes
Four eggs. One big surprise!

**Play:**

1. Draw an egg on the top half of a piece of paper. Draw an animal inside of the egg. At the bottom of the paper, write 3 clues describe the animal.
2. Create a flap: Use another piece of paper. Cut the shape of an egg and tape or glue at the very top of the egg over the egg that you drew.
3. Make a few more of the eggs with different animals inside.

**Materials:**

- Several pieces of blank paper
- Crayons, markers, or colored pencils
- Scissors

**Learn:**

1. Do you remember how many eggs there were at the beginning? What colors were they?
2. How did the alligator feel when his/her/their friends left? What can you do when you feel lonely?
3. Can you think of other animals that hatch?

**Practice:**

- Miserable
- hatch

**Now try this!**

Get your family together to play the Guessing Game. Ask your family members to guess what is inside each egg! Remember to provide them the 3 clues on each egg.
